# Regulatory themes

*This page presents results for this care home from the 2017/18 survey in alignment with regulator inspection themes (informed by the latest inspection framework introduced by CQC in England). Not all attributes rated in the survey are shown. These results reflect the views of residents. They do not reflect results of regulator inspections or reports (nor are they endorsed by any of the national regulators covering England, Wales, Scotland and Northern Ireland).*

# Explanatory notes

Your Care Rating is conducted on behalf of care home providers by leading market research organisation, Ipsos MORI. It covers care homes that primarily serve older people (aged 65+). However, where younger adults live in such care homes, they are also included.

Overall, 25 care home providers participated in the Your Care Rating Residents' survey in 2017/18. A total of 16,784 residents took part in the survey across 820 care homes. The survey was conducted between early September and late October 2017. Trend data is shown for care homes that took part in 2016/17 (receiving 5 or more responses).

This home report provides a breakdown of results for:

## **Cotleigh Residential Home**

Results are based on

### **30 response(s) from residents**

Results are presented across a range of aspects asked about in the Your Care Rating survey (such as the quality of food and availability of staff). In addition, an Overall Performance Rating (OPR) and four Theme scores are presented.

The OPR is derived from the survey results using rigorous statistical methods, and is designed to be easily accessible to a range of audiences. The OPR is calculated based on the four Theme scores, which themselves are calculated based on results for individual aspects. Further information about the OPR and Theme scores can be found at [www.yourcarerating.org](http://www.yourcarerating.org).

For practical reasons, the wording of some questions has been shortened for this report. Please refer to the survey questionnaire for the full question wording.

Throughout this home report, benchmark figures have been provided, showing the average score for the survey. Benchmarks are based on results for care homes achieving at least 5 responses for any individual attribute. Small base sizes should be treated with caution.

Please note the following technical details:

- OPR and Theme scores are shown out of a possible total of 1,000.
- Percentage scores are shown out of 100%.
- Net Promoter Score (NPS) is the percentage of respondents rating their likelihood to recommend their care home to friends and family as 9 or 10 out of 10, minus the percentage rating their likelihood to recommend their care home as 0 to 6 out of 10 (e.g. if 50% of respondents answer 9 or 10, and 30% answer 0 to 6, the NPS is +20).
- Data are unweighted.
- Results are shown for all valid responses (excluding blank responses to questions).
- Where figures do not add up to 100%, this is due to computer rounding.
- Combined figures are based on the constituent parts (e.g. % agree = % strongly agree + % tend to agree). These figures are also subject to the effect of rounding.
- An asterisk indicates a score less than 0.5%, but greater than zero.

For further information visit [www.yourcarerating.org](http://www.yourcarerating.org)

By taking part in the Your Care Rating survey, care providers are demonstrating very tangibly their commitment to:

- Hearing the views of residents, family members and friends
- Improving further the quality of their services

To recognise this, Your Care Rating will allow them to use the Quality Mark.
