Explanatory notes

Your Care Rating is conducted on behalf of care home providers by leading market research organisation, Ipsos MORI. It covers care homes that primarily serve older people (aged 65+). However, where younger adults live in such care homes, they are also included.

Overall, 19 care home providers participated in the Your Care Rating Residents' survey in 2018/19. A total of 11,188 residents took part in the survey across 532 care homes. The survey was conducted from early September to late October 2018. 15 care home providers participated in the Your Care Rating Family and Friends' survey in 2018/19. A total of 6,796 family members and friends of residents took part in the survey across 525 care homes. The survey was conducted between October and November 2018, with responses completed online or using a paper-based questionnaire. Trend data is shown for care homes that took part in 2017/18 (receiving 5 or more responses).

This home report provides a breakdown of results for:

Stratton House

Results are based on:

31 response(s) from residents

9 response(s) from family and friends

Results are presented across a range of aspects asked about in the Your Care Rating survey (such as the quality of food and availability of staff). In addition, an Overall Performance Rating (OPR) and four Theme scores are presented.

The OPR is derived from the survey results using rigorous statistical methods, and is designed to be easily accessible to a range of audiences. The OPR is calculated based on the four Theme scores, which themselves are calculated based on results for individual aspects. In order to enable comparison of the Theme and OPR scores between the Family & Friends' and the Residents' surveys, only questions which are comparable across both surveys are included in the calculations

of these scores. Scores for questions suffixed with an asterisk are not included in Theme score or OPR calculations. Further information about the OPR and Theme scores can be found at www.yourcaring.org.

For practical reasons, the wording of some questions has been shortened for this report. Please refer to the survey questionnaire for the full question wording.

Throughout this home report, benchmark figures have been provided, showing the average score for the survey. Benchmarks are based on results for care homes achieving at least 5 responses for any individual attribute. Small base sizes should be treated with caution.

Please note the following technical details:

- OPR and theme scores are shown out of a possible total of 1,000.
- Percentage scores are shown out of 100.
- Net Promoter Score (NPS) is the percentage of respondents rating their likelihood to recommend the care home to friends and family as 9 or 10 out of 10, minus the percentage rating their likelihood to recommend the care home as 0 to 6 out of 10 (e.g. if 50 of respondents answer 9 or 10, and 30 answer 0 to 6, the NPS is +20).
- Data are unweighted.
- Responses are shown for all valid responses (excluding blank responses to questions).
- Where figures do not add up to 100, this is due to computer rounding.
- Combined figures are based on the constituent parts (e.g. agree = strongly agree + tend to agree). These figures are also subject to the effect of rounding.
- An asterisk indicates a score less than 0.5, but greater than zero.

By taking part in the Your Care Rating survey, care providers are demonstrating very tangibly their commitment to:

- Hearing the views of residents, family members and friends
- Improving further the quality of their services

To recognise this, Your Care Rating will allow them to use the Quality Mark.
